Calls to other satellite networks	540 units per min
SMS (mobile originated)	6 units

By purchasing a prepaid SIM card or voucher, the Purchaser understands that he or she is entering into a prepaid service agreement with Outfitter Satellite, Inc., and the Purchaser acknowledges having read the Terms and Conditions included in all pages of this agreement including those incorporated by reference and located at <http://www.OutfitterSatellite.com/adobe/TermsConditions.pdf> and agrees to be bound thereby. If the Purchaser is acting in a representative capacity, the Purchaser agrees that the entity he or she is representing will be bound thereby and further represents and warrants that he or she is a duly authorized representative that has full authority to bind said entity.

**GLOBAL PREPAID VOUCHER DESCRIPTION:** Airtime is billed in 20 second increments. The current prepaid account balance and carry-over information are available to customers by dialing 2888 from their Iridium phone. Call details records are not available. SMS messages include up to 160 characters, and undeliverable SMS messages from errors unrelated to the Iridium network such as mail filters or mailbox overflows remain billable.

**VALIDITY EXPIRATION DATE:** Upon initial activation, a prepaid account's validity expiration date is equal to the validity associated with the first voucher applied to the account relative to the activation date. If an additional voucher is applied to the prepaid account prior to the validity expiration date, the additional validity time associated with the new voucher is added to the current validity expiration date (up to a maximum extension of 24 months). All unused units of prepaid usage that have not yet exceeded their carry-over period roll forward into the new validity period. After the validity expiration date, all unused units on the prepaid account are lost.

**CARRY-OVER PERIOD:** Units of prepaid usage from individual vouchers applied to a prepaid account are consumed on a first-in-first-out basis. The carry-over period for any voucher is 3 years from the date that the voucher was applied to the prepaid account. Unused prepaid units originating from a voucher that has exceeded its carry-over period will be expired from the prepaid account on a daily basis.

**VOUCHER WITH 100 MINUTES AND 0-MONTH VALIDITY:** This voucher cannot be loaded onto a zero-balance prepaid account so it must be purchased with a validity extension.

**OTHER TERMS:** Basic Rate Calls are defined as calls consuming 60 units per minute. Customer agrees that the purchase of prepaid vouchers is a non-refundable up-front purchase, and after a prepaid voucher is applied to the Customer's account or otherwise electronically delivered to the Customer, that there is no refund for unused prepaid service or unused validity time. The existing prepaid account balance and validity are lost if a different type of voucher (such as a regional prepaid voucher) is loaded onto the account. Outfitter Satellite has no liability for prepaid units that are allowed to expire if the Customer's reload request is made less than 48 business hours before the validity expiration date. If prepaid units are allowed to expire due to a clerical error on Outfitter Satellite's part, Outfitter Satellite has a maximum liability of \$100 per SIM. **270-DAY GRACE PERIOD:** The SIM card will be deactivated permanently if a reload voucher is not applied within 270 days (the grace period) of the validity expiration date or the date a zero balance first occurred, which ever comes first. **Customer pays taxes, USF fees and other fees in addition to rates shown.**
