REGIONAL PREPAID VOUCHERS: Call origination is restricted to the HOME ZONE specified for the voucher type. There are a small percentage of instances where this geographic restriction will extend or retract from the HOME ZONE as defined below so that calls may be interpreted by the Iridium system as originating outside the designated HOME ZONE and will be restricted from making calls. Service availability is not guaranteed in these instances. Call details are not available. Airtime is billed in 20 second increments. SMS messages include up to 160 characters, and undeliverable SMS messages from errors unrelated to the Iridium network such as mail filters or mailbox overflows remain billable. The current prepaid account balance and carry-over information are available to customers by dialing 2888 from their Iridium phone.
